THE DANCING BEAR LEISURE TRAILS

Get fit or just get outside! Perfect for dog-walking or a mountain warm-up.

■ The West Side Trails

The West Side Trails are a series of mild meandering foot paths where one can take a short or long walk with varying degrees of difficulty. This entire trail system is approximately 1 mile. These trails feature a mild elevation change and are perfect for a quiet trip through the woods or a less vigorous dog walk.

■ The East Side Trails

The East Side Trails feature a steep switchback, making them the most difficult of the Dancing Bear Trails. The East Side Trails are the perfect warm-up for a Smoky Mountain hike. We recommend starting at the Appalachian Bistro and walking downhill towards the Dancing Bear Coffee House or Apple Valley Mountain Village. Make sure to grab a hot tea or latte for the energy to make it back up the hill! This trail system is approximately 1 mile.

■ The Cabin Paths

The Cabin Paths provide access between the cabins and the Appalachian Bistro. They also connect you to the Event Lawn, Papa Pete's Fire Pit, and other meeting areas at Dancing Bear Lodge.
